LemurBiotics®

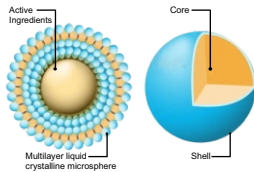

Probiotics & Enzymes

Overview and technology of the ThinSkyn®

ThinSkyn® Oral Dissolving Strips (ODS) are thin, edible films designed to dissolve quickly in the mouth without the need for water. Their innovative composition allows active ingredients to be absorbed directly into the bloodstream through the oral mucosa, bypassing the gastrointestinal tract. This ensures faster and more efficient absorption compared to traditional forms like tablets or capsules, thanks to the patented ThinSol® technology and our advanced microencapsulation system, which ensures the stability and effectiveness of the active ingredients.

“Microencapsulation is a technology that encases active ingredients in microscopic protective capsules, improving stability, bioavailability, controlled release, and masking undesirable flavors to make our ThinSkyn® even more effective.”

Benefits:

Latest generation of probiotics designed to promote the balance of intestinal flora, featuring Bacillus Coagulans in spores. Daily use improves intestinal wellness and supports overall digestive health.

Each component has been carefully selected to ensure optimal results and safety.

Support your body's digestion of the foods you love with a special Enzyme Blend.

Enjoy accelerated action with ThinSol Oral Dissolving Strip technology—exclusively found in ThinSkyn by Colony.

Warnings:

Keep out of the reach of children under three years of age. Do not exceed the recommended daily dose. Supplements are not intended as substitutes for a varied, balanced diet and a healthy lifestyle. This dietary supplement is intended for adults and should not be used by pregnant or breastfeeding women.

How to Use:

Place your ThinSkyn LemurBiotics strip above or below the tongue, or inside the cheek, and allow it to dissolve before swallowing.

Take one strip a day, 30 minutes before one of the main meals (preferably lunch).

Store in a cool and dry place.

NO WATER NEEDED.

DragonPower®

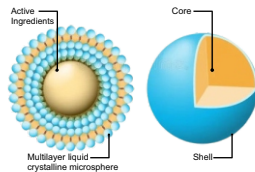

Energy Booster

Overview and technology of the ThinSkyn®

ThinSkyn® Oral Dissolving Strips (ODS) are thin, edible films designed to dissolve quickly in the mouth without the need for water. Their innovative composition allows active ingredients to be absorbed directly into the bloodstream through the oral mucosa, bypassing the gastrointestinal tract. This ensures faster and more efficient absorption compared to traditional forms like tablets or capsules, thanks to the patented ThinSol® technology and our advanced microencapsulation system, which ensures the stability and effectiveness of the active ingredients.

"Microencapsulation is a technology that encases active ingredients in microscopic protective capsules, improving stability, bioavailability, controlled release, and masking undesirable flavors to make our ThinSkyn® even more effective.

Benefits:

DragonPower® is formulated to support energy metabolism, reduce tiredness, and enhance mental and physical resilience. This innovative supplement also contributes to the proper functioning of the nervous system and aids normal protein and glycogen metabolism. Its powerful blend of key ingredients promotes psychological well-being, helps reduce fatigue, and protects cells from oxidative stress.

- Panax Ginseng: May support cognitive performance, memory, and mental sharpness. It contributes to normal blood circulation, enhancing brain performance and reactivity. Additionally, it may help maintain physical and mental capabilities during times of exhaustion, tiredness, or lack of concentration.*
- Camellia Sinensis: May assist in maintaining a healthy body weight and contribute to overall metabolic balance.*

*(Health claims for Panax Ginseng and Camellia Sinensis are under EFSA review since 2010.)

DragonPower is for your body and your mind!

Warnings:

Keep out of the reach of children under three years of age. Do not exceed the recommended daily dose. Supplements are not intended as substitutes for a varied, balanced diet and a healthy lifestyle. This dietary supplement is intended for adults and should not be used by pregnant or breastfeeding women.

DefenderDuck®

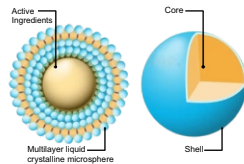

Immune Support

Overview and technology of the ThinSkyn®

ThinSkyn® Oral Dissolving Strips (ODS) are thin, edible films designed to dissolve quickly in the mouth without the need for water. Their innovative composition allows active ingredients to be absorbed directly into the bloodstream through the oral mucosa, bypassing the gastrointestinal tract. This ensures faster and more efficient absorption compared to traditional forms like tablets or capsules, thanks to the patented ThinSol® technology and our advanced microencapsulation system, which ensures the stability and effectiveness of the active ingredients.

"Microencapsulation is a technology that encases active ingredients in microscopic protective capsules, improving stability, bioavailability, controlled release, and masking undesirable flavors to make our ThinSkyn® even more effective.

Benefits:

Amla Fruit may Stimulates digestion, may alleviate digestive discomfort and may Protects gastrointestinal system (Pending Health Claim EFSA 2010)

Thanks to Elderberry extract, it supports:

- The natural fluidity of bronchial secretions.
- Normal upper respiratory tract functionality.
- Regulation of the sweating process.
- Drainage of body fluids.
- The body's natural defenses.

In addition, Zinc plays a key role in immune health, helping to maintain a strong and healthy immune system.

The secret weapon: DefenderDuck is powered by PUREMUNE, a patented Yeast Beta-Glucan from Immudyne Nutritional.
